Very good quality solid (I think cherry wood or like) sectional office desk. Main desk is 6'x3' with 3 drawers. The middle section is 4'x2' and the 3rd section is 6'x2' with 2 large drawers. Where there are no drawers, is open for plenty of leg room or storage. The side cabinet is 3'x2' and can be separate or added to the sectional if you have a large office. Furniture height is 29". Great condition. Only used on occasion as this is a spare office/desk. New, this was a very expensive/quality set of furniture. Lot's of work space to spread out.

We are asking \$125.00 for entire set. Moving to a new location end of July. Would like to sell it prior to move.
